- A bar chart comparing revenue for the last quarter and the next quarter (projected). The y-axis represents revenue in millions of dollars, ranging from 0 to 100. The x-axis has two categories: 'LAST QTR' and 'NEXT QTR (PROJECTED)'. The 'LAST QTR' bar is blue and reaches 75 on the y-axis. The 'NEXT QTR (PROJECTED)' bar is orange and reaches 85 on the y-axis. A red dashed line is drawn at the 80 level. A red arrow points from the 80 line to the 'NEXT QTR (PROJECTED)' bar. A red callout box with a white border contains the text '• 13%'.
